---

Good morning Greg,  
Give me a call and let me know when and I will try to meet you. Btw light rain last night. No issues.

William,

If nothing else comes up for me tomorrow, I may try and come to the IC just to check in and make a presence on behalf of Texas. You going to be around?

Greg

Good Morning Greg,  
I wanted to forward you a copy of the Contingency Plan. It has been executed in anticipation of rain today. As per my note to Tom below I think we are in pretty good shape. Give me a call with any questions. 214 437-9804. Thx

Hey Tom,

I just wanted to touch base with you on the spill. Things are going pretty well Sunoco has recovered approx. 3100 bbls of crude but still have quite a bit of work to do. We urged them to put together a Contingency Plan for bad weather and the potential of some oil being pushed into the lake. I believe they have adequate resources on hand to handle things but if you have any questions or issues let me know. You can reach me at 214.437.9804. Thx.
